FOREST FIRE REPORT

Windham, N. H. January 31, 1937.

In submitting my annual report as part of the permanent records I wish to express thanks to citizens and visitors for their support during the year 1936.

As the ponds, lakes and forest lands of Windham continue to be the vacation centers of more tourists, there

is greater need for more public education on forest fire prevention and suppression.

To help check this yearly loss a public appeal is made to everyone to observe, and put into practise a few simple forest fire protection rules as requested by the New Hampshire Forestry Department; that it is unlawful to kindle or cause to be kindled any fire in or near woodlands, pasture, brush, sprout, waste or cut-over-land, except when the ground is covered with snow, without first obtaining written permission from the forest fire warden.

Camp Fires: Camp or cooking fires may be kindled without permission of the forest fire warden providing permission has been secured from the land owner. Build no fires on dry, windy days or when the woods are closed by proclamation.

Every person starting a fire which gets out of control is Lable for the cost of extinguishing it, in addition to the penalty of violation and damage resulting.

It is hoped that everyone will be more mindful of their behavior with fire when traveling through the woods remembering that a match has but one head, but cannot think, so don't let it go out alone.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Windham School Board:

Very little is needed in way of a report; because Windham's three schools are taught by the same experienced teachers as last year and there have been no unusual incidents requiring special mention.

The School house in District No. 1 was painted outside and the school-room walls tinted. There is need of repairs on the roof of the tower. The total cost of adminstration is higher than last year, but this is fully accounted for by the items of increased transportation and the special appropriation for painting above referred to.

The proposed tax levy covers 400 dollars extra for High School Tuition, while "Income" is lacking in the item "Cash on hand".

The average cost of operation as now managed is about \$7,500 dollars and the miscellaneous income about \$200 dollars. These are average figures and do not include extras for unusual repairs.
